

Aurora Public Schools

Integrated Learning Academy Tutoring Program 2015-2016

Student Academic Growth

In the Aurora Public School district, 77 students participated in the Integrated Learning Academy in-home tutoring program. The students gained an average of 1.9 (one year, nine months) of grade-level equivalency in their focus subject. The four math students gained an average of 3.2 years of grade-level equivalency in math, and the results for the 73 reading students are detailed below:

Gain in grade-level equivalency (years.months) from pretest to posttest

Integrated Learning Academy Tutoring Program 2015-2016

Parent Evaluation of ILA Program

We invited parents of all students to complete a program evaluation in their choice of English or Spanish.

“My student shows overall improvement in the following areas:”
